6.3 /10

## TECHNICAL SKILLS

---

- HTML
- CSS
- BOOTSTRAP
- JAVASCRIPT

## PROJECTS

---

- **College website**  
This code builds a simple, clean, and mobile-friendly college website that displays information about courses, campuses, facilities, student feedback, and encourages enrollment. By using Html,Css and JavaScript
- **Construction Company**  
This is a basic and responsive construction company website made with HTML, Bootstrap, and CSS. It has sections like Home, About, Services, Projects, Team, and Contact. The design is clean, mobile-friendly, and easy to customize.
- **Indian States Information Display**  
This simple web page displays information about different Indian states. Initially, it shows details about Andhra Pradesh (state, capital, and a brief description). When the "Next state" button is clicked, it updates to show information about the next state in the list. The data for the states is stored in an array, and each state's details are displayed dynamically using JavaScript.
